3. BACKGROUND

The term 'Money Laundering' refers to act of concealing or disguising origin and ownership of proceeds from criminal activities including drug trafficking, public corruption, terrorism, fraud, human trafficking and organized crime activities. 'Terrorist financing' is the use of legally or illegally obtained funds to facilitate terrorist activities. 'Money Laundering' and 'Terrorist Financing' may involve a wide variety of financial products, services and transactions including lending & investment products, financing of equipment or other property that could be used to facilitate terrorism and other criminal activity.

Almost every crime with a profit motive can create proceeds that can be laundered. For example, fraud, theft, illegal drug sales, organized crime, bribery, corruption of government officials and human trafficking can create illegal funds that a criminal seeks to convert into legitimate property without raising suspicion. Tax evasion and violations of fiscal laws can also lead to money laundering.

A financial institution may be used at any point in the process of money laundering. The criminals and other anti-social elements keep coming-up with innovative means to launder money and no financial institution is immune from possible victimization.

To address issue of money laundering, the Government of India had made money laundering a crime and prescribed regulatory requirements for compliance by the banks, financial companies/ institutions and other regulated/ reporting entities to prevent and detect money laundering. To prevent money-laundering in India and to provide for confiscation of property derived from or involved in money-laundering and related matters, the Government of India enacted the Prevention of Money Laundering Act, 2002 (PMLA), as amended from time to time. Further, the PMLA and necessary Notifications/ Rules thereunder have been published and amended thereafter.

**CUSTOMER IDENTIFICATION REQUIREMENTS
(INDICATIVE GUIDELINES)**

Trust/ Nominee or Fiduciary Accounts

1. There exists the possibility that trust/nominee or fiduciary accounts can be used to circumvent the customer identification procedures. HFCs should determine whether the customer is acting on behalf of another person as trustee/nominee or any other intermediary. If so, HFCs may insist on receipt of satisfactory evidence of the identity of the intermediaries and of the persons on whose behalf they are acting, as also obtain details of the nature of the trust or other arrangements in place. While opening an account for a trust, HFCs should take reasonable precautions to verify the identity of the trustees and the settlors of trust (including any person settling assets into the trust), grantors, protectors, beneficiaries and signatories. Beneficiaries should be identified when they are defined. In the case of a 'foundation', steps should be taken to verify the founder managers/directors and the beneficiaries, if defined. If the HFC decides to accept such accounts in terms of the Customer Acceptance Policy, the HFC should take reasonable measures to identify the beneficial owner(s) and verify his/her/their identity in a manner so that it is satisfied that it knows who the beneficial owner(s) is/are.

Accounts of companies and firms

2. HFCs need to be vigilant against business entities being used by individuals as a 'front' for maintaining accounts with HFCs. HFC should verify the legal status of the legal person/ entity through proper and relevant documents. HFC should verify that any person purporting to act on behalf of the legal/ juridical person/entity is so authorized and identify and verify the identity of that person. HFCs should examine the control structure of the entity, determine the source of funds and identify the natural persons who have a controlling interest and who comprise the management. These requirements may be moderated according to the risk perception, e.g. in the case of a public company it will not be necessary to identify all the shareholders.

Client accounts opened by professional intermediaries

3. When the HFC has knowledge or reason to believe that the client account opened by a professional intermediary is on behalf of a single client, that client must be identified. HFCs may hold 'pooled' accounts managed by professional intermediaries on behalf of entities like mutual funds, pension funds or other types of funds. Where the HFCs rely on the 'customer due diligence' (CDD) done by an intermediary, they should satisfy themselves that the intermediary is regulated and supervised and has adequate systems in place to comply with the KYC requirements. It should be understood that the ultimate responsibility for knowing the customer vests with the HFC.

Accounts of Politically Exposed Persons (PEPs)

4. Politically exposed persons are individuals who are or have been entrusted with prominent public

functions, e.g. Heads of States or of Governments, senior politicians, senior government/ judicial/ military officers, senior executives of state-owned corporations, important political party officials, etc. HFCs should gather sufficient information on any person/ customer of this category intending to establish a relationship and check all the information available on the person in the public domain. HFCs should verify the identity of the person and seek information about the sources of funds before accepting the PEP as a customer. The decision to open an account for PEP should be taken at a senior level which should be clearly spelt out in Customer Acceptance Policy. HFCs should also subject such accounts to enhanced monitoring on an ongoing basis. The above norms may also be applied to the accounts of the family members or close relatives of PEPs.

Accounts of non-face-to-face customers

The Company will open any account of non-face-to-face customers in compliance with the Master Direction- Know Your Customer (KYC) Direction, 2016.
